This catalog provides a list of the HP 12792A software modules and the media on which the software modules are distributed. The purpose of the list is to define the software modules currently supported with the product and to indicate the part number of different media on which these modules reside (if applicable).

You will find several uses for this catalog. For example, you can use it to:

- order replacement software on the media type you need.
- find the software residing on any media type.
- determine the names of files on the media's directory.
- determine the current software revision code of the modules.

This catalog contains a listing of the modules by file name. The column headings of the lists define:

MODULE	The unique file name of the software module. The file names are the names used in the file directory of any medium.
DESCRIPTION	A concise definition of the software module.
DATE CODE	The software revision of the module.
PART NUMBER	The part number of the software module (also the part number of the paper tape if available).
CARTRIDGE	The part number of the minicartridge on which the software module resides.

MODULE	DESCRIPTION	DATE CODE	PART NUMBER	CARTRIDGE
%PVM00	MULTIPLEXER PRE-DRIVER	2032	12792-16001	12792-13301
%DVM00	MULTIPLEXER INTERFACE DRIVER	2032	12792-16002	12792-13301
