

The Internet

Simple, fully
automatic tasks
(cmdline/...)

Request / event routing
(public_html/index.php, lib/event_page.php)

Page to monitor long tasks
(pages/job_progress.php)

High-level, long-running PHP scripts
(jobs/__.php)

Pages for user interaction, presenting
results, and very quick tasks
(pages/__.php)

Data presentation
(public_html/view__.php)

Mid-level PHP functions
(lib/__.php)

Richardson lab programs
(Probe, Reduce, ...)

Low-level PHP functions
(lib/__.php)

File system
(public_html/data/... , tmp/...)

PHP serialization
(\$_SESSION[...])
